

Vendor Electrical Requirements

All vendors, concessions, crafters, straight sales, or anyone under contract with the Circleville Pumpkin Show Inc. will be required to use the following electrical specifications to use our electric boxes. These are the standards of the National Electric Code.

***** 100 feet of power cord sized to fit the Main Breaker in your concession. *****

**Main Fuse/Breaker
In Concession**

Plug Size

Wire Type

10-20 amp.	Straight Blade	12/3 SO-W or SOO-W
25-30 amp.	30 amp NEMA L1430	10/3 SO-W or SOO-W @ 120 V (One "Hot") 10/4 SO_W or SOO-W @240 V (Two "Hots")
35-60 amp	60 amp NEMA 1460	6/4 SO-W SOO-W
>60 amp	(4) Male Cord-End "Cam-Lok" E1016 Series	(4) single Conductor wires #2 or Larger Type SOW or Type W

You must have at least 100 feet of heavy, weather resistant electric wire to reach one of our electric boxes. It must be stamped SOW or SOOW. You must have an electric breaker box with a manual shut off in your booth. **Power strips and common extension cords are not acceptable.** These strict codes are enforced by the City of Circleville Building Department.

Example for tent vendors:
